Contacts on LA River and Santa Cruz River TNW  
Determinations

Denis –

A few questions:

Who are the lead staffers in charge of EPA's determination of TNW status for the LA and Santa Cruz Rivers?

We would like to set up a briefing with these staff on the process being used in these determinations, progress towards these determinations, as well as the anticipated date when the decisions will be made.

Does EPA anticipate taking over TNW determinations from the Corps for any other waters?

Thanks,

Ben
